In addition, a web site has been created to provide further information related to the strategic planning process and can be accessed at <http://www.antioch34.com/board.cfm>. This site will be updated throughout the process to transparently communicate with the strategic planning team, stakeholders and the public.

I am excited to work with you and other Antioch School District 34 stakeholders as we set direction for the future together through teamwork, collaboration and shared leadership. Albert Einstein defined insanity as a belief that one can get different results by doing the same thing. While the results of this district deserve celebration, the strategic planning process will move us from great to even greater.
