

Cyberbullying

Tips for Students

Students:

1. Never give your password out to anyone, other than your parent or guardian.
2. Use an avatar, not a real photo of yourself.
3. Keep your personal information PRIVATE—the more information people have about you, the more ammunition they have to hurt you.
4. Don't let your sense of freedom on the internet cause you to act improperly. Your online words and actions also have consequences.
5. Respect others. If you wouldn't like it said about you, don't say it about someone else.
6. The Internet is NOT anonymous. Your computer has an address in the online world, just like your home has an address in the real world.
7. Posting online is the same as writing with a permanent marker—it CANNOT be erased!
8. Think about what you are posting. Would you want your grandmother to see the content?
