

MRS. C.'S CHRONICLES

TEAM BUILDING!

Team building is not an easy task, but with the help of eager students this last week, I can tell we are building a strong foundation for our “classroom team” climate. It is important to build our foundation through team/partner collaborative activities. Effective collaboration within the classroom is strongest when each person has strong positive character traits, and we have worked on strengthening our character traits inside and outside the classroom.

Please ask your child about:

- Toothpaste – We did not brush our teeth. :)
- Our read aloud this week– Danger on Midnight River. What is currently happening with Daniel?
- Levels of Development-functioning as a cooperative or democratic classroom
- What “is” reading?
- Our, We Believe, pledge
- Our Ground Rules/Norms

Water & Snack

Please send your child with a water bottle in the morning. Proper hydration is vital for the brain to function properly. Snack may be eaten throughout the day when your child is hungry.

Thank you!

Wonderful Effort!

To my spectacular students- we have really worked hard this week to create a loving and caring classroom climate. Let's keep this momentum going and have a fantastic year!!

Thank you.

Parent Forms

Please return your meet and greet forms next week after you have had a chance to read this important information about our classroom community. Please also remember to submit the multiple intelligences about your child through email.

Thank you!
